Summary

Motivated software engineering student seeking an internship opportunity to apply my skills and passion for software development. Proficient in JavaScript, Python, React.js, Django and Node.js, with experience building responsive and interactive web applications. Eager to contribute to a dynamic team, learn new technologies, and gain practical experience in a fast-paced, innovative environment.

Education

- **Bachelor of Science in Software Engineering**
University of Zimbabwe, Harare, Zimbabwe
Expected Graduation: August 2026
- **Relevant Coursework:** Data Structure and Algorithms, Software Engineering, Database Systems

Skills

- Proficient in JavaScript, Python, React.js, Django and Node.js
- Knowledge of database management systems including SQL and MongoDB
- Familiar with Git for version control and collaborating on projects
- Strong problem-solving, communication, and teamwork abilities developed through academic projects and freelance work

Extracurricular & Certificates

- **J.P. Morgan Software Engineering Virtual Experience on Forage - August 2024**
Set up a local dev environment by downloading the necessary files, tools and dependencies.
Fixed broken files in the repository to make web application output correctly.
Used JPMorgan Chase's open-source library called Perspective to generate a live graph that displays a data feed in a clear and visually appealing way for traders to monitor.
- **Certified in Legacy JavaScript Algorithms and Data Structures** ([Profile](#) | [freeCodeCamp.org](https://www.freecodecamp.org))

Projects

- **Talent Verify:** Developed a full-stack online verification service that allows employers to manage and update employee information
